

# Downloading your Web Design Diploma work from GitHub

1. In your web browser, go to your account on GitHub. The web address will be similar to the following:

**<https://github.com/marysmith>**

2. If you are not already signed in to your GitHub account, sign in now.
3. Click on the repository that holds all your Web Design work. Its name will be similar to:

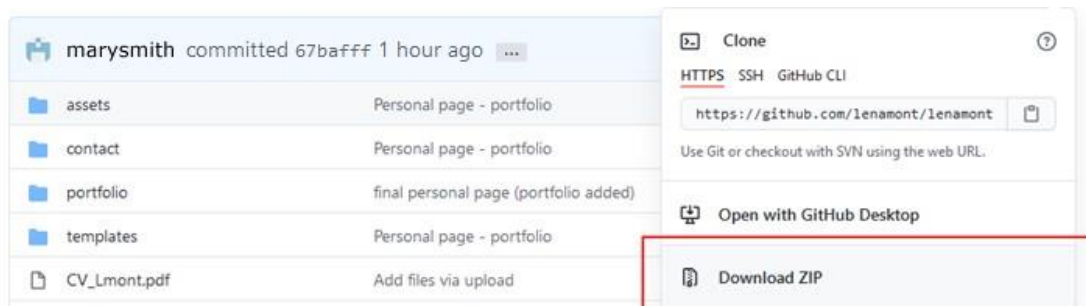

**[marysmith.github.io](https://github.com/marysmith.github.io)**

4. On the next screen, click the green button named **Code**.

From the drop-down list of options, click **Download ZIP**.

All your folders and files will now be compressed into a single ZIP file and transferred down to the **Downloads** folder on your computer. Your downloaded file will have a name such as **marysmith.github.io-master.zip**.

That is step one completed.

---

## Uploading your Web Design work to Google Classroom

Next...

1. Using your IBAT email and password, sign in to the Google Classroom for this course:

<https://classroom.google.com>

2. If you see more than one class listed, select the class named **Web Design - February 2022**.

3. From the menu of options across the top of the screen, click **Classwork**.

4. Click the **Assignment** named **Web Design May2024**.

5. Click **Assignment** (Upload of Final ZIP File) and then **View Assignment**.

6. Under **Your work**, click **Add** and then the **File** icon.

7. After selecting your ZIP file from your computer, click the **Add** button.

8. Finally, click **Turn in**.

That's it.

Thank you.
